HIKING HOLIDAYS NATIONAL PARK PANORAMA TRAIL

Hiking: National Park Panorama Trail

Around the green heart of Switzerland

The National Park of Switzerland. Since 1979 the largest nature reserve in the country and one of the last large unspoiled areas in the Alpine region. Here, man consciously withdraws himself and nature determines the course of things.

You will experience this spectator role intensively and up close on the tour along the Panorama Trail. But it is not just nature that develops undisturbed. Culture lovers will visit the St. Johannin Münstair Monastery, a UNESCO World Heritage Site, while connoisseurs will fortify themselves with barley soup for the hike around the green heart of Switzerland.
