HIKING HOLIDAYS VIA ENGIADINA CLASSIC

Hiking: Via Engiadina

Mountain Trails along the Inn

The Inn is fed by the waters of more than 800 glaciers. This river originates at the Maloja Pass and, in turn, fills some of the most beautiful Alpine lakes as it flows. The Via Engiadina hike follows the course of this river and takes you through picturesque mountain trails. You will pass Silvaplana and St. Moritz and marvel at the glistening glaciers of the nearby Bernina range.

You will soon leave the tourist centres behind as you walk through dreamy mountain villages up to the pristine mountain landscape of the Swiss National Park. For more than 100 years, nature has been flourishing undisturbed in the south-eastern corner of Switzerland, so the Via Engiadina trek and the Inn river take you through a mountainous landscape that is second to none.
